

Indirect Procurement Pulse

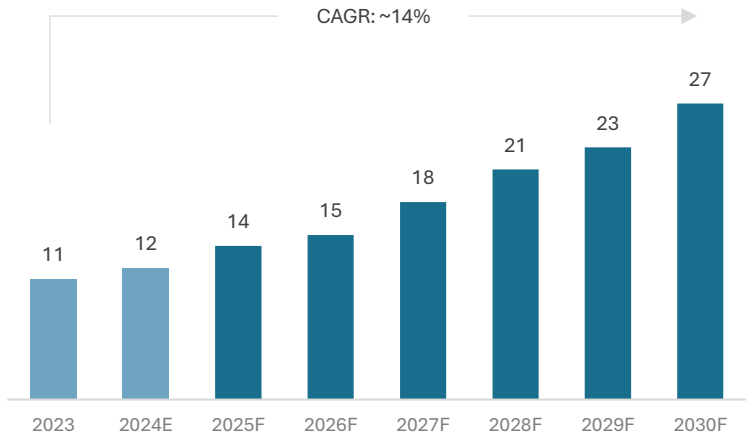

Category Trends and Insights Unveiled

Industry Snapshot

Architectural Engineering and Construction Solutions
Industry Landscape & Outlook

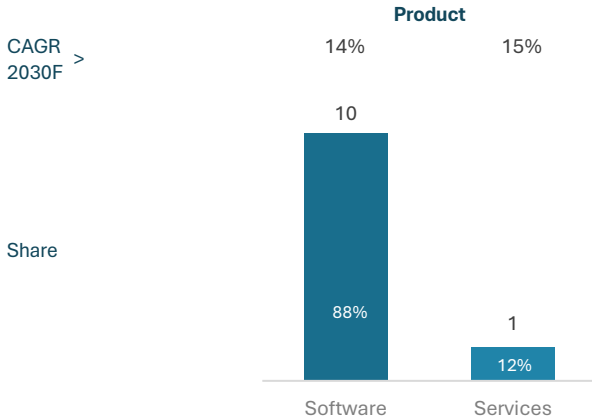

Market Trajectory

2023-2030 | USD Billion

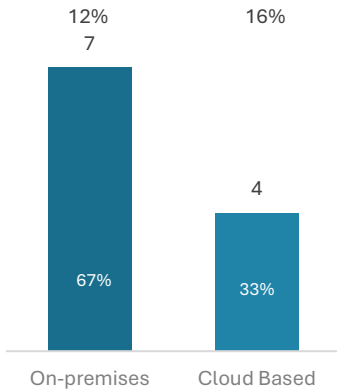

Demand Market Share

2023 and 2030F | USD Billion

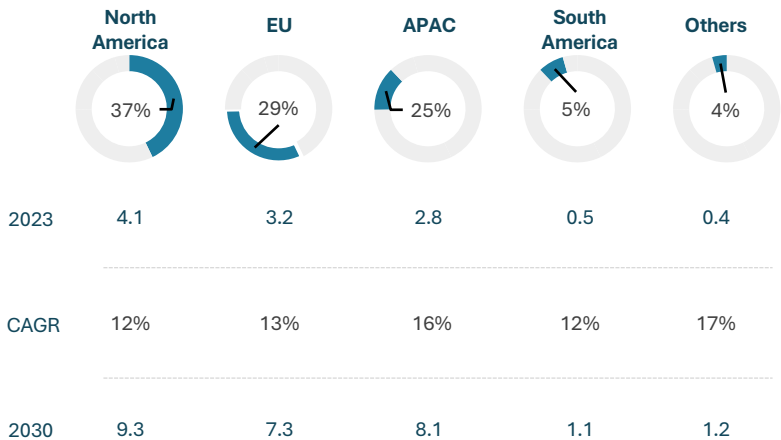

Deployment

Regional Market Share

2023 and 2030 | USD Billion

Supply Market Structure

Consolidated  Fragmented

Key Player Include:

- 4M SA Advanced Software Engineering Systems
- ACCA Software Spa
- ANSYS Inc.
- Autodesk Inc.
- Bentley Systems Inc.
- CYPE Ingenieros
- Dassault Systemes SE
- Esri Global Inc.
- Hexagon AB

Market Outlook

Insights

The market is poised for moderate growth, fueled by the increasing need for efficient management of large-scale projects, expansion of global construction industry and reduction in design timelines, enabling faster project execution and enhanced collaboration.

Market is set to see growth due to advancements addressing the evolving demands for efficiency and scalability in construction. The market continues to align with industry growth by optimizing workflows and resource utilization.

The AEC Solutions market faces medium-level challenges, including limitations of open-source platforms, which may lack necessary features and support. Interoperability issues between different AEC systems create integration hurdles, reducing efficiency. High initial implementation costs also pose a barrier, especially for smaller organizations. These factors impact the adoption and scalability of AEC solutions.
