

Indirect Procurement Pulse

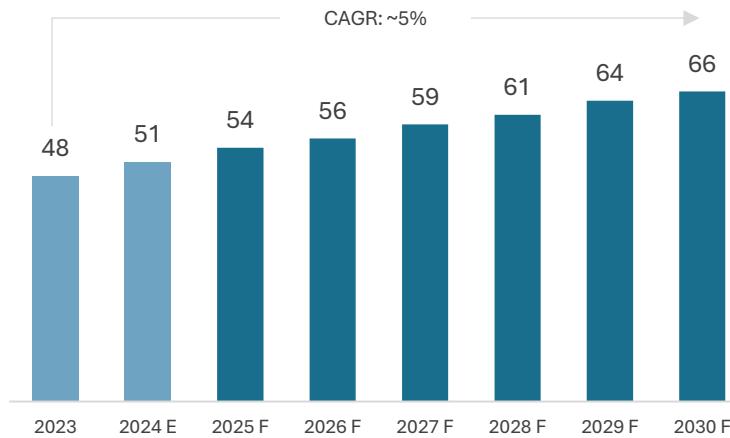

Category Trends and Insights Unveiled

Industry Snapshot

**Global Enterprise Data Storage Industry
Landscape & Outlook**

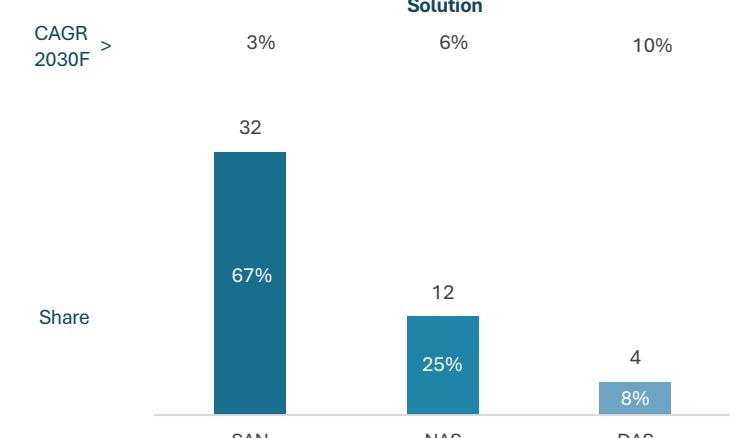

Market Trajectory

2023-2030 | USD Billion

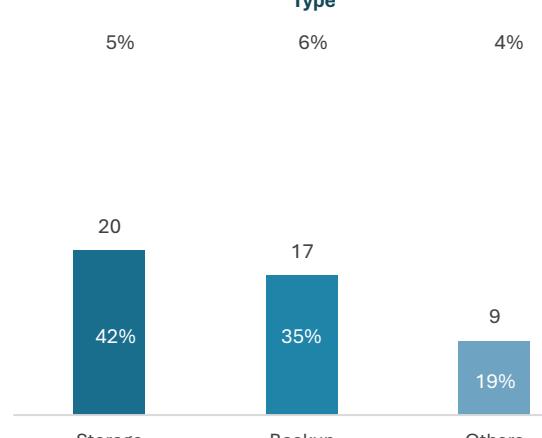

Demand Market Share

2023 and 2030 | USD Billion

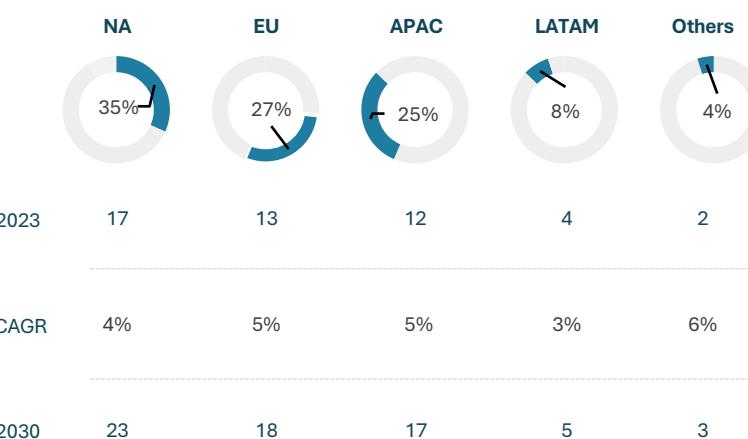

Type

Regional Market Share

2023 and 2030 | USD Billion

Supply Market Structure

2023

Key Player Include:

- Broadcom Inc.
- Commvault Systems
- DataDirect Networks
- Dell Technologies
- Fujitsu Ltd
- Hewlett Packard Enterprise
- Hitachi
- Huawei Technologies
- Infinidat
- Inspur Group
- Lenovo Group

Market Outlook

Insights

The global enterprise data storage market is growing rapidly, driven by the exponential increase in data generation and the need for scalable, secure, and efficient storage solutions.

Businesses are adopting advanced storage technologies, such as cloud storage, hyper-converged infrastructure, and software-defined storage, to manage and process large volumes of data.

Key trends include the shift to hybrid and multi-cloud environments, improved data security measures, and advancements in storage efficiency and speed. The market also benefits from the growing need for disaster recovery, data compliance, and business continuity solutions across industries.
