

Indirect Procurement Pulse

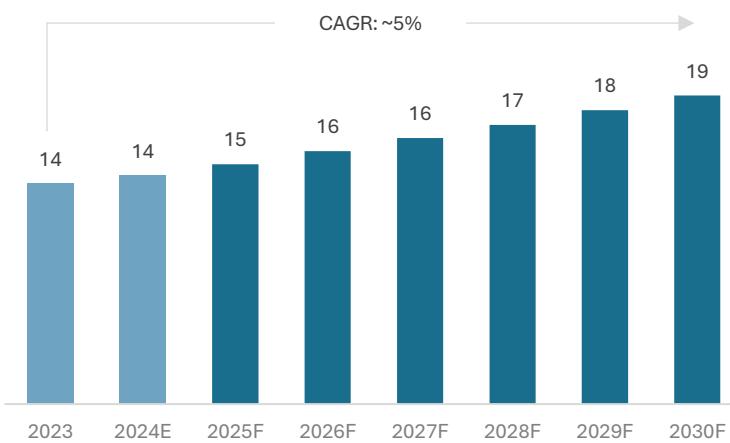

Category Trends and Insights Unveiled

Industry Snapshot

**Global Offshore Oil & Gas Pipeline Industry
Landscape & Outlook**

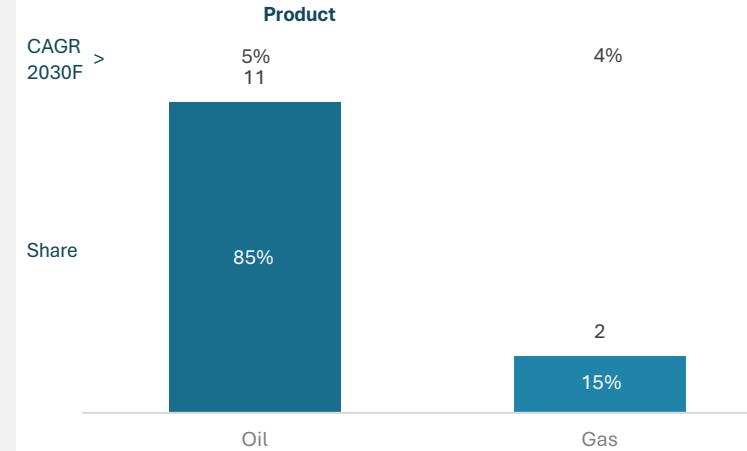

Market Trajectory

2023-2030 | USD Billion

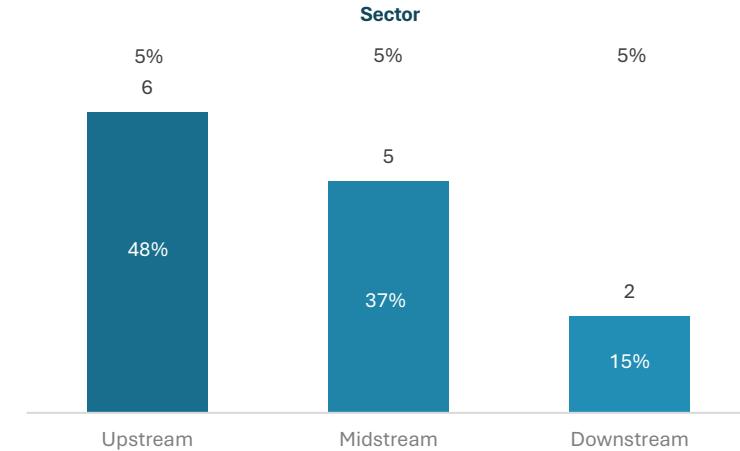

Demand Market Share

2023 and 2030 | USD Billion

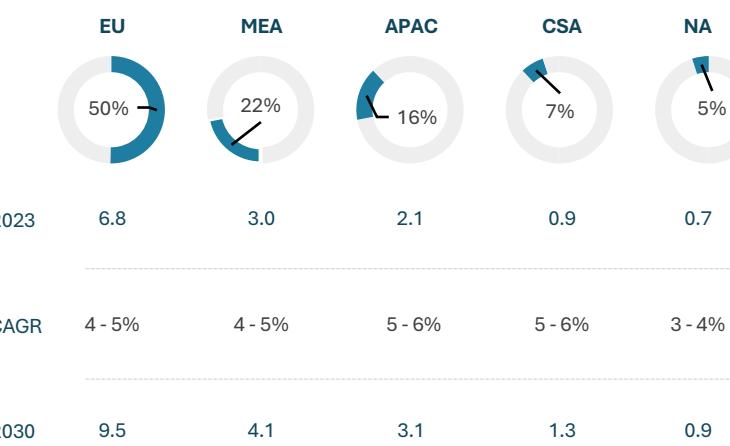

Sector

Regional Market Share

2023 and 2030 | USD Billion

Supply Market Structure

2023

Consolidated  Fragmented

Key Player Include:

- McDermott International Ltd
- Nippon Steel Corp
- ArcelorMittal SA
- Salzgitter AG
- Atteris Pty. Ltd.
- Larsen and Toubro Ltd
- Fugro NV
- John Wood Group PLC
- JFE Holdings Inc.

Market Outlook

Insights

Rising global energy demand drives the need for efficient oil and gas transportation. Offshore pipelines, offering cost-effective and reliable solutions, play a crucial role in meeting these growing energy requirements.

New reserve discoveries and declining production from existing fields are driving offshore E&P activities, requiring pipeline infrastructure to transport extracted resources.

Advanced pipeline installation techniques like S-lay and J-lay enhance efficiency and safety, enabling faster, reliable operations in offshore projects and significantly contributing to the growth of the pipeline market.
